

Protecting Wellness with BioCoat!

CLWARD is proud to announce the successful application of our cutting-edge anti-microbial BioCoat at the University of Pittsburgh's Recreation and Wellness Center. Ensuring the highest standards of cleanliness and safety, our BioCoat is the perfect solution to address IAQ concerns in the duct system.

PROJECT HIGHLIGHTS:

Client: University of Pittsburgh's Recreation and Wellness Center

Location: 4th-floor pool area

Product Used: CLWARD BioCoat (Black) in 22-5 gallon pails

Supplier: Pittsburgh Air Systems

Contractor: SSM Industries, Inc. Pittsburgh, PA

For this job, SSM Industries chose to apply the BioCoat in black so that the application could be visibly noticeable. On the fourth floor pool area, an anti-microbial coating was needed for the ductwork due to the moisture present in the this area of the building. SSM Industries chose the BioCoat due to its ease of application, quick dry time, and easy clean up. Based on the success of this job, SSM Industries will look to use BioCoat on future anti-microbial needs.

WHY CHOOSE CLWARD BIOCOAT?

Anti-Microbial Protection: Provides a robust shield against microbial growth, preventing mold, mildew, fungus, and yeast in the duct system.

Water-Based: Safe and environmentally friendly, our BioCoat is water-based and easy to apply.

UL 723 Classified: Meets rigorous safety standards, ensuring top-quality performance.

Fast Dry Time: Quick application and drying time to keep your projects on schedule.

Water Resistant: Protects against water migration into the duct system which could lead to microbial growth.

LEED Compliant: Contributes to sustainable building practices and helps in achieving LEED certification.
