

CLWARD

Need Protection? Choose FiberCoat.

Protect and extend the performance of fiberglass insulation with FiberCoat, CLWARD's premium aerosol edge coating spray. Designed for both protection and repair, FiberCoat dries quickly to create a durable, flexible barrier that helps seal exposed edges, reinforce damaged areas, and keep duct liner performing as intended. Easy to apply and built for lasting results, FiberCoat helps crews work efficiently while delivering a cleaner, more professional finish.

Why choose FiberCoat?

- ▶ **High Strength & Durability:** Creates a tough, dependable coating designed for lasting protection.
- ▶ **Quick Drying:** Dries quickly to help crews move through jobs efficiently.
- ▶ **Tack-Free Finish:** Cures to a clean, non-tacky surface.
- ▶ **Flexible Performance:** Remains flexible after curing to support long-term durability.
- ▶ **Insulation Protection:** Encapsulates cut or damaged insulation to help protect exposed areas.
- ▶ **Coverage:** Provides approximately 50 sq. ft. of coverage per can.
- ▶ **Shelf Life:** Maintains performance for approximately one year when properly stored.

Shake well and spray about 5 inches from the surface. Apply to exposed insulation edges, cuts, or tears to help contain loose fibers. Keep away from heat and open flames.

Easy Application.
Lasting Fiber Protection.
